

# YOUR SAFETY IS OUR PRIORITY

## C-19 REOPENING SUMMARY

We have a plan that promotes and adheres to strict, sanitation standards, and physical distancing. These will be our guiding principles to resume our swimming lessons safely.

### Kids Have Fun, Parents See Progress

SAFER FAMILIES & SWIMMERS

#### HEALTH & STAFF SCREENINGS

All families will be screened with questions as per Public Health regulations, before the start of each lesson.

#### CLASS CHANGES

In order to adhere to proper physical distancing requirements, we're reducing the number of classes scheduled at a given time and marked designated seating areas 2m apart.

All classes will remain at 30 minutes and will have staggered start times by 5 minutes.

#### CHEERING PRACTICES

Handshakes, high fives, fist bumps will be replaced with contactless forms of praise!

### Whatever It Takes

SAFER STAFF

#### FACE MASKS & SHIELDS

Face masks and shields will be provided for staff use.

Face masks are required for all adults and swimmers age 9 and above (grade 4 and up).

#### WORK AREAS

Staff will be using one station per shift as their station and will clean their area before, during and after use.

#### TRAINING

All staff will be trained in Covid-19 specific changes and emergency procedures. Employee manuals will be updated with guidelines, sick and travel policies.

### Always Clean

SAFER TOGETHER

#### CLEANING & HYGIENE

We will be increasing our already rigorous sanitization protocols, including the cleaning of high-touch surfaces like door handles and bathroom fixtures every 30 minutes.

We will also continue to properly balance our chlorinated water, including secondary ultra violet filtration, and HVAC systems to keep clean water and fresh air flowing through the building.
